PROFILE

.NET Developer with 5+ years of experience in C# and .NET Core, specializing in designing, implementing, and maintaining scalable web applications. Proficient in MySQL database management, GraphQL API development, Angular 15 front-end integration, and CI/CD pipelines using Azure DevOps.

SKILLS

.Net Core • C# • Angular 15 • ASP.NET Core • Redis • SQL • Azure • GraphQL • Git • CI/CD • Web API • Entity Framework • TypeScript

PROFESSIONAL EXPERIENCE

Accenture

02/2020 – Present | Gurugram, India

Software Engineer

- **Azure Key Vault Security Implementation**
- Designed and implemented secure password migration from SQL database tables to Azure Key Vault, enhancing application security and eliminating plaintext credential storage.
- Integrated secure secret retrieval using Azure SDK in .NET Core during authentication workflows.
- Improved credential security compliance and reduced risk of data exposure
- **Multi-Factor Authentication (MFA) System**
- Developed and deployed a **Multi-Factor Authentication (MFA)** system using **ASP.NET Core and C#**.
- Enhanced authentication security and reduced unauthorized access incidents.
- **Azure Blob Storage Migration**
- Designed and implemented file migration solution from **Azure File Share (UNC Path)** to **Azure Blob Storage** using a .NET Console Application.
- Integrated file storage selection (Blob/File Share) within a **Windows desktop application**.
- Implemented file validation and integrity checks post-migration.
- Improved file accessibility and scalability while reducing storage dependency on local infrastructure.
- **Configuration Lock Mechanism (Admin Module)**
- Designed and developed a configuration lock framework using **ASP.NET Core**, enabling administrators to control module-level settings.
- Implemented role-based permission logic to allow partial client configuration.
- Improved system governance and ensured compliance across multiple client environments.
- **Client Time Zone Configuration System**
- Built a dynamic time zone configuration module using **.NET Core and MySQL**.
- Implemented robust time zone conversion logic for global clients using UTC standardization.
- Improved scheduling accuracy and reduced time-related operational errors.

EDUCATION

B.Tech in Computer Science & Engineering

08/2016 – 08/2019

THDC Institute of Hydropower Engineering and Technology,
Tehri, Uttarakhand

Bachelor of Science (BSc)

08/2012 – 08/2016

Radhey Hari Govt. Post graduate College

CERTIFICATES

- AZ-900 Microsoft Azure Fundamental
